ABOUT UPES ONLINE

UPES Online, the digital learning vertical of UPES, is aimed at empowering professionals looking to advance in their careers, students aspiring to upskill, and individuals striving to achieve personal goals. It offers a range of flexible, industry-relevant programs designed to equip learners with the skills needed to thrive in today's dynamic job market. UPES Online offers MBA, BBA, and BCA degrees, all enhanced with industry masterclasses and immersive experiences, maintaining the same level of academic rigour as traditional in-person programs. Additionally, the platform provides intensive 10-month Postgraduate Programs (PGP) in fields such as Oil and Gas, Renewable Energy, and Industrial Safety, with the integration of advanced technologies like AI, Data Science, and Cloud Computing into the curriculum.

UPES Online is an extension of UPES, a UGC-entitled, multidisciplinary, not-for-profit, research-driven university, committed to academic excellence, exemplary student outcomes, and social impact. As the 'University of Tomorrow', it pioneers transformative education, shaping learners into changemakers. With seven schools, including Computer Science, Engineering, Health Sciences and Technology, Design, Business, Law, Liberal Studies and Media, UPES provides industry-ready education to over 14,000 students at its campuses in Dehradun.

As per the National Institutional Ranking Framework (NIRF) 2024, UPES has been ranked 46, with a rank of 42 in engineering and a rank of 41 in management. In addition to this, the university has been ranked the No.1 private university in academic reputation in India by the QS World University Rankings 2025 and is among the top 3% of universities in the world. UPES has also been accredited by NAAC with a grade 'A' and has received 5 stars on Employability (placements), by globally acclaimed QS Rating. The university has had 100% placements over the last five years. Forty-two (42) faculty members of UPES are among the world's top 2% researchers as per Stanford University list.

ABOUT OUR PROGRAM

It's a 10-month PG Program for professionals who need focused program in Operations Management. The program is meant for professionals moving into mid or senior management roles in domains like e-commerce, aviation, manufacturing, hospitality, retail, and consulting. The program is delivered in a blended learning format of self-learning, live sessions from expert faculty members, case study discussions and real-life problem solving.

PROGRAM BENEFITS

The objective of this program is to develop professionally qualified and trained professionals to handle Operations and shall have the following competencies:

- 1** To develop a solid understanding of operations management concepts such as operations, quality management, production planning, and inventory management.
- 2** To learn to analyse data and make informed decisions based on their findings. This includes using mathematical models, statistical tools, and simulation techniques to optimise processes and improve efficiency.
- 3** To develop critical thinking skills and learn to solve complex problems using a systematic approach. They will also learn to identify opportunities for improvement and implement innovative solutions.
- 4** To learn to communicate effectively with various stakeholders such as suppliers, customers and employees. They will also learn to prepare reports and presentations to communicate results and recommendations.
- 5** To learn to manage resources efficiently, including people, machines, materials, & information. This involves scheduling production, coordinating with suppliers and customers and optimising resource utilisation for maximum productivity.
- 6** To gain knowledge about regulatory and legal requirements related to operations management, such as safety regulations, labour laws, and environmental regulations.
- 7** To learn to work collaboratively and lead teams effectively to achieve operational goals. They will also develop leadership skills such as decision-making, conflict resolution, and motivation.

UNIQUE FEATURES

This program intends to make you an exceptional professional in operations management to pursue a career at mid or senior management level in Operations or related industries. It covers key concepts, international best practices and along with key management skills. The program is designed by industry experts and delivered online to suit working professionals.

- Delivered in blended learning format that is best suited for working professionals
- Expert faculty with hands on learning approach and practical insight
- Case studies for insight into real life projects

- Those looking for a comprehensive program in Logistics and Supply Chain Management

CERTIFICATION

On successful completion of the program the student will be awarded Post Graduate Program in Logistics and Supply Chain Management by UPES

TEACHING METHODOLOGY

Live Classes by Expert Faculty: Our faculty conducts live webinars on each paper, mainly on weekends, where students from India and abroad participate. The sessions cover key concepts, case studies, and real-life examples, and provide an opportunity for students to clarify their doubts. In case of missed classes, recorded sessions are available on the LMS.

Case Studies: The program includes quizzes, problem-solving, and case studies that demonstrate real-world implementation of project management concepts.

Discussion Forums: Faculty members engage students in dynamic discussions on current industry topics to stay up-to-date and explore potential opportunities.

STUDENT SUPPORT SERVICES

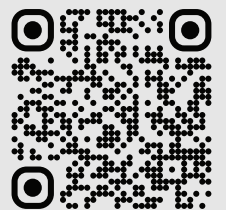

Dedicated Program Managers: Each learner would be associated with a program manager to share or seek any query and feedback through call or mail. All such queries will be answered within 24 hours.

24x7 Helpdesk: Just raise a ticket on any issue and get a real-time response (except on weekends). We encourage students to use this facility.

MBA (General) with Specialisation in Human Resource Management

Driving Tomorrow - The UPES Way

ADMISSIONS OPEN

ABOUT UPES ONLINE

UPES Online, the digital learning vertical of UPES, is aimed at empowering professionals looking to advance in their careers, students aspiring to upskill, and individuals striving to achieve personal goals. It offers a range of flexible, industry-relevant programs designed to equip learners with the skills needed to thrive in today's dynamic job market. UPES Online offers MBA, BBA, and BCA degrees, all enhanced with industry masterclasses and immersive experiences, maintaining the same level of academic rigour as traditional in-person programs. Additionally, the platform provides intensive 10-month Postgraduate Programs (PGP) in fields such as Oil and Gas, Renewable Energy, and Industrial Safety, with the integration of advanced technologies like AI, Data Science, and Cloud Computing into the curriculum.

UPES Online is an extension of UPES, a UGC-entitled, multidisciplinary, not-for-profit, research-driven university, committed to academic excellence, exemplary student outcomes, and social impact. As the 'University of Tomorrow', it pioneers transformative education, shaping learners into changemakers. With seven schools, including Computer Science, Engineering, Health Sciences and Technology, Design, Business, Law, Liberal Studies and Media, UPES provides industry-ready education to over 14,000 students at its campuses in Dehradun.

As per the National Institutional Ranking Framework (NIRF) 2024, UPES has been ranked 46, with a rank of 42 in engineering and a rank of 41 in management. In addition to this, the university has been ranked the No.1 private university in academic reputation in India by the QS World University Rankings 2025 and is among the top 3% of universities in the world. UPES has also been accredited by NAAC with a grade 'A' and has received 5 stars on Employability (placements), by globally acclaimed QS Rating. The university has had 100% placements over the last five years. Forty-two (42) faculty members of UPES are among the world's top 2% researchers as per Stanford University list.
